

## Legal Perspectives

- The consideration of legal principles and the rule of law when adjudicating legal cases, issues, and controversies.

## Questions:

- Which other perspectives should be considered with a case?
  - How does the legal system determine the relative values of different legal perspectives
  - Individual stakeholders like victims, the defendant, ...
- 
- How do we maintain fairness in cases of competing rights and freedoms?
  - Should some rights and freedoms be given priority over others?
  - e.g. religious freedom vs discrimination (sex or sexual orientation)
- Do some stakeholders have a greater claim to fairness than others?
  - How affirmative action programs impose quotas on universities or corporations to accept members of historically disadvantaged groups or visible minorities
  - e.g. Affirmative action, Harvard lawsuit from asian affirmative action
