

NOMENCLATURE Worksheet

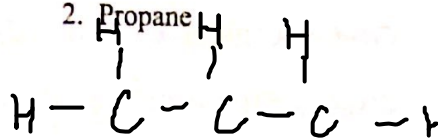

Draw the following organic molecules like the example.

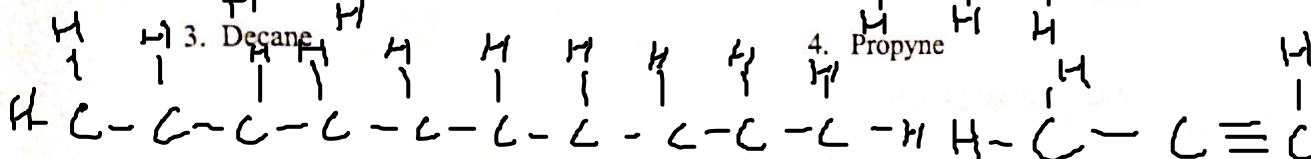

1. Ethane

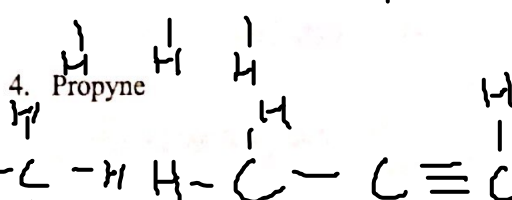

2. Propane

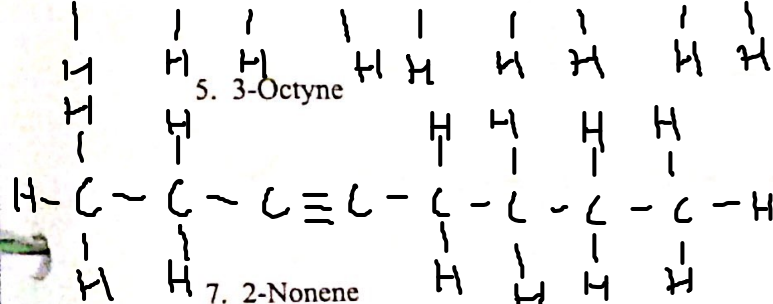

3. Decane

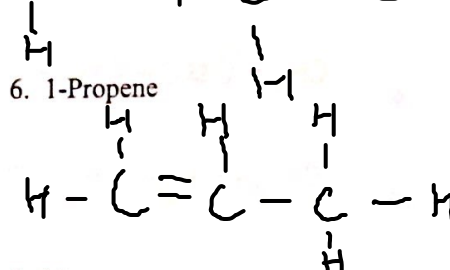

4. Propyne

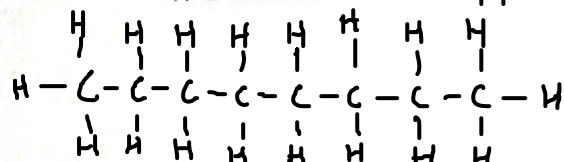

5. 3-Octyne

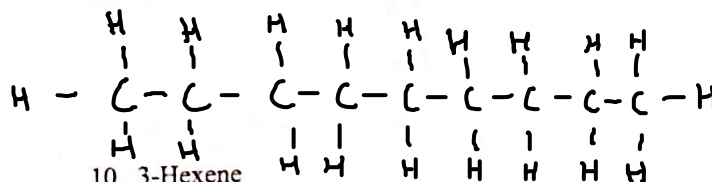

6. 1-Propene

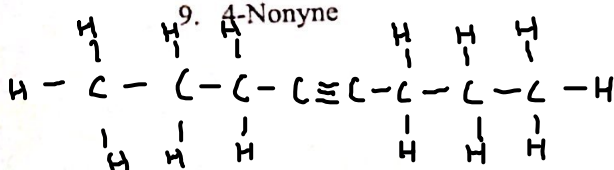

7. 2-Nonene

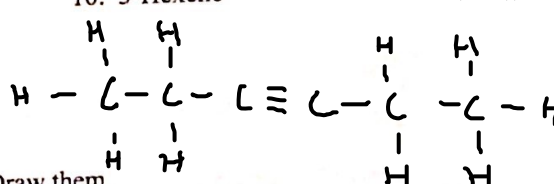

8. Nonane

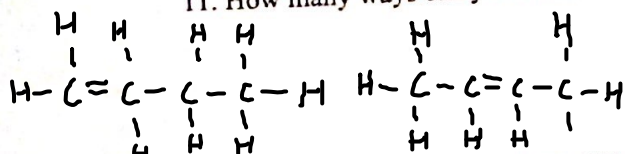

9. 4-Nonyne

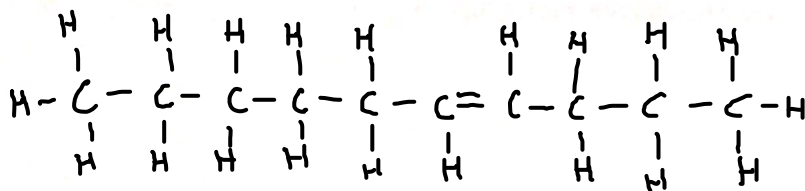

10. 3-Hexene

11. How many ways can you write butene? Draw them.

212. Why is 6-decene not possible? What would it be called?
Draw it.

6-decene would just be 4-decene.

Name the following compounds.
